

# 30A Wireless Load Control Module

lumina™ RF

## APPLICATION

Wireless controls for water heaters, pool pumps, outdoor fountains, etc. Ultra low stand-by power. Universal 96-250 VAC and 50/60 Hz. Can be used outdoors.

## Functionality

Using wireless mesh technology, the load control module acts as an interrupter to turn devices on or off based upon schedules or manual control via apps and Touchscreens.

## THE LUMINA™ RF FAMILY

Leviton's powerful wireless Lumina™ RF family ensures energy savings in new construction and retrofit in small applications. Scalable from single location to franchise to enterprise, with company-wide holidays and schedules easily managed for all locations. Control lights, lamps, fans, shades, pumps, and Somfy window coverings.

Additional Leviton Lumina™ RF products include thermostats, heavy-duty load control modules, and a general purpose plug-in module to enable a complete wireless energy management system.

## FEATURES AND BENEFITS

- UL Listed for outdoor use
- Wireless remote control of water heaters, pool pumps, outdoor fountains, etc.
- Includes current measurement capabilities for instantaneous demand
- Load energized: 0.25 watt (considered "standby" as this is a load-shedding device)
- Load de-energized: 1.4 watt

## Dimensions

5.25" H X 4.25" W X 2.25" D

## WARRANTY INFORMATION

Two-Year Limited Warranty
